

Reel Green BC serves as a gateway to information and resources that promote positive environmental practices in BC's film and television production industry.

Catering & Craft Service

- ★ Encourage the use of reusable cutlery, plates and cups, rather than using disposable items
- ★ Buy organic and locally grown food to help offset greenhouse gas emissions and other pollutants associated with the transportation of food
- ★ Apply fair trade principles when selecting imported food products e.g. coffee, tea, chocolate and bananas
- ★ Ensure that recycling facilities are available on location, for plastic, glass, cans and metals
- ★ Use lunch locations as places to post and inform cast and crew of good environmental practices
- ★ Encourage the use of personal travel mugs to discourage the consumption of disposable waxed paper cups
- ★ Dispose of liquid wastes at approved disposal sites; DO NOT use storm drains

If you have any other suggestions, please email additional best practices or good news stories of environmental stewardship to info@bcfilmcommission.com
