

Reel Green BC serves as a gateway to information and resources that promote positive environmental practices in BC's film and television production industry.

.....

All Departments

- ★ Ensure the set is equipped with recycling facilities
- ★ Ensure all crew members are aware of environmental standards for the production
- ★ Where possible minimise the use of disposable items
- ★ Buy environmentally friendly products with recycled content
- ★ Use environmentally responsible cleaning products on location
- ★ If composting is available, provide food waste bins for use on set
- ★ Provide facilities for the disposal of chewing gum and provide butt buckets or personal/pocket ashtrays for cast and crew
- ★ Familiarise staff regarding the Code of Conduct for Filming in BC
- ★ Identify any unique guidelines or regulations associated with the location including local, provincial and First Nations protocols
- ★ Identify potential environmental impacts when assessing film locations for health and safety risks
- ★ Include environmental protection control measures in call sheets to raise awareness among cast and crew
- ★ Use spill kits and storm water drain covers as part of the standard equipment for working on location

If you have any other suggestions, please email additional best practices or good news stories of environmental stewardship to info@bcfilmcommission.com
