

Reel Green BC serves as a gateway to information and resources that promote positive environmental practices in BC's film and television production industry.

---

## Post Production & Visual Effects

- ★ If available and appropriate, use digital post-production workflow systems
- ★ Avoid tape
- ★ Make use of the energy saving features for equipment and computers
- ★ Where compatible with clients, distribute projects and demonstration reels on DVD or via other digital means
- ★ In the office environment, apply purchasing, energy efficiency, water conservation and waste reduction practices
- ★ Consider appropriate water filtration systems when processing film

If you have any other suggestions, please email additional best practices or good news stories of environmental stewardship to [info@bcfilmcommission.com](mailto:info@bcfilmcommission.com)
